

## Tigo Energy Installers Empowered with Financing Options from Dividend Finance

March 1, 2022

Dividend Finance adds Tigo Energy Intelligence residential solar solution to Approved Vendor List for U.S. solar installers.

**Campbell, CA, March 1, 2022** — [Tigo Energy, Inc.](#), the solar industry's worldwide leader in Flex MLPE (Module Level Power Electronics), today announced that its Energy Intelligence (EI) residential solar solution has been added to the Approved Vendor List (AVL) for financial products at [Dividend Finance](#), a leading national provider of technology-enabled financing solutions for renewable energy, energy-efficient upgrades, and general home improvement. In addition to the recent [California Energy Commission \(CEC\) certification](#) of the Tigo platform, this new financing option ensures that solar installers and homeowners have confidence in their decision to choose Tigo Energy for residential home energy management solutions.

"We listen to the market and are responsive to our customers to deliver true value to them," said Eric White, CEO at Dividend Finance, on a [recent episode](#) of the Sunecast podcast. By approving Tigo Energy's EI solution for its AVL, Dividend Finance expands its installation partners' suite of options in order to grow the United States residential solar market to meet consumer demand.

Dividend Finance allows its customers to secure financing through a comprehensive suite of financing options with a seamless process for clean energy and home improvement verticals. Additionally, Dividend Finance offers commercial property assessed clean energy (PACE), a public-private financing mechanism for energy efficiency, renewable energy, water conservation, and seismic upgrades on privately owned property.

"Dividend Finance is a pioneer in the residential solar business, and we are thrilled to see our Energy Intelligence solution on the company's AVL," said Jing Tian, chief growth officer at Tigo Energy. "This approval gives our U.S. solar installers a simple path to financing Tigo products, enabling yet another path for our growth and driving more clean solar energy into the market."

The [Tigo EI](#) Residential solar-plus-storage product line allows for maximum flexibility in an integrated system that is easy to install, fast to commission, and convenient to maintain through the Tigo EI mobile app and a browser-based program. The platform provides energy production monitoring, system diagnostics, and remote software upgrades for streamlined operations and maintenance for Tigo installers. With industry-leading warranties on all hardware, homeowners and installers can rely on product performance and support from Tigo Energy over the life of their energy systems.
