

## **Tigo's Flex MLPE now UL-listed with IronRidge's Flush Mount**

March 20, 2020

The Tigo Access Point (TAP) and TS4-A Platform of Add-on flexible module-level power electronics are compatible and certified with IronRidge's hardware under UL2703.

Campbell, CA, March 30, 2020 – Tigo Energy, Inc.®, pioneer of the smart Flex MLPE & TS4 Platform, and IronRidge, part of global solar racking company, Esdec, today announced the companies' new Underwriter Laboratories (UL) 2703 listing of operational compatibility.

The listing includes the Tigo Access Point (TAP) and TS4-A Add-on Platform of flexible module-level power electronics (Flex MLPE) with IronRidge's Flush Mount racking components for residential, commercial, and industrial PV systems. The rigorous testing performed by UL met the necessarily standards for certified safety this month. The products are now available from the respective companies and shipping from many distribution partners.

Tigo's TS4-A Platform allows for an easy installation experience with one side mounting of its Flex MLPE. Installers have greater flexibility in selecting the Flex MLPE location on the module frame or various racking systems like IronRidge's Flush Mount.

"Our rigorous approach to providing world-class mounting hardware has led to unique features such as offering certifiably safe solutions with Tigo's Flex MLPE," says William Pereira, Product Manager at IronRidge. "We are pleased that Tigo has joined our network of UL-listed solutions so we can offer our customers flexible, trusted components for their PV systems."

"Tigo welcomes the opportunity to certify compatibility with PV components like IronRidge's Flush Mount hardware," says Sarah Ozga, Product Manager at Tigo. "Both solutions value industry-leading reliability and certified safety which is why we were open to collaboration."

Contact Tigo for more information about the TS4-A Platform. ### About IronRidge

IronRidge, an Esdec company, designs and manufactures structural hardware for residential and commercial solar systems. For over 20 years, we have worked closely with solar professionals to build strong, simple, and cost-effective products. IronRidge is NSF® Certified to ISO 9001, maintaining the highest of quality management standards. Our products are also supported with powerful online tools and experienced sales and service teams, who are dedicated to making solar easy to design, procure and install.

### About Tigo

Tigo is a Silicon Valley company founded in 2007 by a team of experienced technologists. Combining a unique systems-level approach with expertise in semiconductors, power electronics, and solar energy, the Tigo team developed the first-generation Smart Module Optimizer technology for the solar industry. Tigo's vision is to leverage integrated and retrofitted Flex MLPE and communications technology to drive the cost of solar electricity down. By partnering with tier 1 module and inverter manufacturers in the industry, Tigo is able to focus on its key innovation with the smartest TS4 modular platform and leverage the broader ecosystem. Tigo has operations in the USA, Europe, Latin America, Japan, China, Australia, and the Middle East. Visit [www.tigoenergy.com](http://www.tigoenergy.com).
