

St. Jude's Dream Home in California Receives Solar System Donation from Tigo Energy and Partners

April 2, 2026

Coachella Valley home draws raffle contributions for St. Jude's Dream Home Giveaway program, supporting treatment, travel, housing or food for patients and their families.

LOS GATOS, Calif.--(BUSINESS WIRE)--Apr. 2, 2026-- [Tigo Energy, Inc.](#) (NASDAQ: TYGO) ("Tigo" or "Company"), a leading provider of intelligent solar and energy software solutions, today announced that the Company has collaborated with solar industry partners to donate the solar system for the most recent St. Jude's Dream Home in California's Coachella Valley.

The 2026 Coachella Valley St. Jude Dream Home Giveaway house includes a 3.8kW [Tigo EI Inverter](#) donated by Tigo, [Tigo TS4-A-O MLPE](#) devices donated by Greentech Renewables, and expert installation provided by GOAT Solar. The 5.72kW system features simple expansion options for batteries, a generator, and more as part of the [Tigo GO Optimized ESS](#) (Energy Storage System).

"This was a great project for a great cause, and I think this house will have a very happy owner in addition to making a difference for St. Jude's," said Nate Lewis, CEO and owner at [GOAT Solar](#). "I've worked with Tigo products for nearly a decade, and it was fun to work together on this worthy cause with this group of companies."

"It was great to have the opportunity to support the important work St. Jude's is doing right here in the Coachella Valley," said David Petta, Manager at Greentech Renewables, Coachella Valley. "Beyond supporting this organization, we are obviously also happy about standing behind and promoting the solar industry."

"Supporting this project was made possible by an outstanding group of companies getting together," said James Dillon, chief marketing and customer experience officer at Tigo. "By working with high quality organizations such as GOAT Solar and Greentech Renewables, we are able to use our solar solutions to help make an impact for the families served by the St. Jude's community."

About Tigo Energy

Founded in 2007, Tigo Energy, Inc. (Nasdaq: TYGO) is a worldwide leader in the development and provider of smart hardware and software solutions that enhance safety, increase energy yield, and lower operating costs of residential, commercial, and utility-scale solar systems. Tigo combines its Flex MLPE (Module Level Power Electronics) and solar optimizer technology with intelligent, cloud-based software capabilities for advanced energy monitoring and control. Tigo MLPE products maximize performance, enable real-time energy monitoring, and provide code-required rapid shutdown at the module level. The company also develops and provides products such as inverters and battery storage systems for the residential solar-plus-storage market. For more information, please visit www.tigoenergy.com.
